12-RAJA SANSI — DETAILED 222-BOOTH MASTERPLAN

Booth-level field operations strategy based on 2022 Assembly vs 2024 Parliamentary Dataset (Amritsar PC)

Purpose & Operational Framework

This document provides actionable field directives for all 222 polling stations of 12-Raja Sansi. Every booth is assigned a concrete operational action sequence focused on cadre mobilization, grievance listening, voter turnout revival, and repeat round visits.

90-Day Booth Engagement Cycle

• Days 1–30: Assign booth coordinators, assemble local committee, attach historical polling telemetry, and map geographic village clusters.
• Days 31–45: Round 1 field visits — systematic community listening, record civic grievances, and verify voter list changes.
• Days 46–60: Follow-up — submit recorded public grievances to appropriate departments and follow up on progress.
• Days 61–75: Round 2 field visits — return to booth, report progress on issues, and consolidate local community leadership.
• Days 76–85: Remedial interventions — resolve inactive booth committees and address unaddressed local complaints.
• Days 86–90: Audit & Readiness — complete coverage verification, finalize voter mobilization rosters for 2027.
